Warning! For optimal adhesion, it is recommended to glue the gully trap body to the frame.

Material: ABS

Colour: Light grey (frame)

Features: The grate is removable for all models. While only for the **CHABSV1040** and **CHABSV1050** gully traps the grate holder frame can be lowered to allow the total height to be adjusted by approximately 10 mm.

* Water flow l/min for all models according to the parameters of the standard (UNI EN1253)
