

Corner gully trap

CHAN20G

| Item | A mm | B mm | C mm | D mm | E mm | G mm | H mm | ø T mm | Flow l/min |
|----------------|---------|---------|---------|---------|---------|---------|---------|-----------------|---------------|
| CHAN20G | 200 | 1130 | ø 80 | ø 100 | ø 110 | 115 | 75 | 80/100 - 90/100 | > 100 |

Material: PVC Anti-shock

Colour: Grey

Features: The evacuation of rainwater from the downpipe to the underground drainage network can be carried out using different products, positioned in the final part of the gutter system, such as wells, downspouts or corner gully traps. To make your choice easier, you can quickly identify the product best suited to your needs using the comparative table below.

| | | INLET | | | | | OUTLET | | | | |
