### Material:

Shockproof PVC (profile) - ABS (accessories)

### Features:

Profil Top Caldo is an equipped skirting board made up of an aesthetic boxed profile in shockproof PVC. It is complete with the essential accessories for easy installation, and its system is designed for off-track heating and plumbing systems fixed with a special pipe-holding bracket. The normal installation problems due to any irregularities in the floor or walls are solved by the co-extruded gaskets present on the profile.
