

Flexible condensate drainage

Item	Colour	Ø mm	Length m
TSCB1618	white/blue	16-18	50
TSCB1820	white/blue	18-20	50

Description: Coex flexible condensate drainpipe

Material: Polypropylene

Features: Produced in bi-extruded Polypropylene with a double layer of different densities, it guarantees high resistance and maximum safety against the risk of micro-holes and possible leaks. Equipped with a junction each meter, it simplifies installation and eliminates any waste. Complete with sealing o-ring, ideal for concealed installation.
